

# Really, we have it all.

'ERV' Expansion Joints by ELAFLEX are certified to global standards for ships.

Manufactured and assembled in Germany. Due to their construction and HiTech rubber compounds our rubber expansion joints convince with a superior life time.

13 different types (in DN 32 – DN 1000 mm) available for any operating condition. Temperature ranges from -40 °C up to +130 °C.

All approved and permanently tested to suit piping systems of ships. Our ERV comply with all vital systems aboard including engine rooms and scrubbers.
