

Safe, Easy ... EASYLOC®

Closing:
automatic
lever lock

Opening:
pull eyelet
to unlock.

Our Camlock couplings are guaranteed to EN 14420-7 in every aspect. They are reliable, leakproof, operationally safe.

Type '**EASYLOC®**' comes with **automatic lever lock to avoid unwanted disconnection** during operation, e.g. due to excessive pulsation or operator error.

Easy and self-explanatory use, sizes DN 19 to 50 mm, made of stainless steel. Available as coupler with BSP female thread, hose coupling or dust cap.
