ERV-BR: Rubber Expansion Joint for abrasive Media

## Dependable

Premium Class: Chemical Hoses to EN 12115

ELAFLEX PACIFIC, a daughter company of ELAFLEX Hamburg in Germany, is the supplier of the Elaflex product range: ZVA nozzles, rubber hoses, couplings and ERV expansion joints along with MannTek Dry Disconnect Couplings in the Pacific region, including Australia, New Zealand and the Pacific Islands.

The ELAFLEX ERV-BR, rubber expansion joint has been created specifically for abrasive media and is perfectly suited to the aggressive nature of sludge dewatering, mineral processing and the transfer of many types of slurries. Our online configurator is the perfect tool to get a fast and efficient overview of the product you require. Try it at
